

# ARE YOU READY?

Today the architectural community faces new challenges of perpetually changing codes. The latest being the continuous insulation energy codes, all while maintaining aesthetic diversity in both new and retrofit construction. Able to satisfy the often divergent building design requirements of form, function, budget, and regulatory compliance. Exterior Insulation and Finish Systems(EIFS) are the ideal solution for meeting these challenges. We have brought in **JW Mollohan** from Dryvit Systems, Inc. to better review how these changing codes influence designing with EIFS.

**RECEIVE 1 CEU!!**

PLEASE CALL JON AT DAKOTA WALL SYSTEMS, INC. AND RESERVE YOUR SPOT TODAY!

**CALL JON** 605-366-7477

**OR DWS** 605-357-9301

**RSVP BY MAY 15TH**

**TOPIC:** DOE MANDATED USE OF CONTINUOUS INSULATION ON METAL FRAMED, COMMERCIAL PROJECTS BY OCT. 18TH 2013

**WHERE:** SIOUX FALLS TBD

**WHEN :** TUESDAY MAY 21ST

**TIME:** 3:00PM-4:00PM

RECEIVE 1 CEU FOR ATTENDING!
